Manage Your Optional Site Modules

Discuss these modules with a member of the GO Smart team while setting up your site.

01
INTENT TO APPLY

The Intent to Apply module allows you to create and offer an Intent to Apply form prior to your applications. This module will also display Intent to Apply statuses on your Grant Manager dashboard.

02
INTERIM REPORT

The Interim Report module allows you to create a form to gather data in the middle of your funding season. This module will also display Interim Report statuses on your Grant Manager dashboard.

03
NEA REPORTING

Pass-through funders for the National Endowment of the Arts can use the NEA module to include templates in their forms that are created specifically for requesting the demographic, location, and budget information that can be sent to the NEA.

04
REGISTRATION USER TYPES

Allow users to register as either an individual or organization. This module will display additional questions on the registration page and will allow you to designate grant opportunities for either or both type of user.

05
INVITATION ONLY

The Invitation Only module allows you to create passwords for grant opportunities which hides the opportunity from anyone without the password.

06
ONE USER PER EMAIL

The Duplicate Check module will keep users from creating multiple accounts with the same email address.

07
MULTI-YEAR APPLICATIONS

The Extended Cycle module allows you to build on existing applications for multi-year or multi-phase application processes.

08
TIMEZONE

The timezone selection will ensure the your deadlines are set to your timezone. Times and timezones will display to your applicants on the Grant Applications & Forms dashboard.
